Compiled and Published by

HENDERSON DIRECTORIES, LIMITED  
279 GARRY STREET, WINNIPEG, MANITOBA

---

Entered according to Act of Parliament of Canada, in the year One Thousand Nine Hundred and Ten by Henderson Directories, Limited, in the Office of the Minister of Agriculture.

# Preface.

---

We have pleasure in presenting this the third edition of Henderson's Saskatoon City Directory. The recent canvass of the city, necessary to the publication of this work, clearly indicates that the rapid growth and development which we have had to report in previous issues is of a permanent character and we have endeavored to faithfully chronicle this progress, for it is generally recognized that there is no better means of spreading information concerning a city, or of making known its commercial and social advantages than through the medium of a thorough, up-to-date City Directory. Such a work we have endeavored to make this present issue.

From the classified business section of the work it will be noticed that many new business firms have located here during the year.

We have again to extend our thanks to our patrons for so marked an increase in the advertising department and for this expression of their growing faith in the necessity and usefulness of this publication, which has become an indispensable adjunct to a modern city's business machinery.

Yours respectfully,

HENDERSON DIRECTORIES, LIMITED.

September, 1910.

# City of Saskatoon

## Geographical Location.

To locate the City of Saskatoon (incorporated 29th May, 1906), it is merely necessary to place the finger on the centre of any reliable map of Western Canada. It will then be seen that Saskatoon is not only in the centre of the West, but also in the very middle of the Province of Saskatchewan; and, at the same time, right in the heart of the Great Hard Wheat Belt. In other words, Saskatoon is, in a very real sense, The Centre of Centres.

## Wholesale Distributing Territory

Another feature still further enhancing the City's unique geographical location is that she is far distant from any other large point. Consequently, the surrounding territory is undisputedly hers: and, she has the competing railway facilities and distributing freight rates to control it absolutely.

As the above mentioned Distributing Territory extends to about 45,000 square miles within which there are, even now, upwards of 200 thriving, growing towns and villages, it is not remarkable that new firms are continually being added to the large list of leading wholesalers already established and handling an astonishing volume of business.

## Railway Facilities

Naturally, the strategic location of the City has not been overlooked by the three great railway companies which have for some years past made it the centre of the greatest railway construction in the Dominion. The Canadian Pacific Canadian Northern and Grand Trunk Pacific,—all are in evidence. Each company has its own steel and concrete bridge spanning the big river at Saskatoon. In all, there are four bridges at Saskatoon, three of which were building at the self-same time, a fact indicating the extraordinary character of the City's development.

## Mail Service

Nine different operating railway outlets radiate from Saskatoon. Sixteen passenger trains daily arrive and depart at her three railway stations, while eleven males are each day received at her post office.

## Growth

In the accepted sense, Saskatoon has no past: There are lads and lasses at school today who saw and lived through the beginning of things, and can therefore tell of all there is to tell. Within seven years, from a slender sprinkling of shacks with their 113 dwellers, has sprung the solid City of Saskatoon with its thriving, prosperous population now numbering about 14,000, and increasing daily with almost incredible rapidity.

From the foregoing, it will be obvious that no city in Canada, has ever, in any sense, approached Saskatoon's phenomenal record of development, and that in this respect she therefore stands alone.

## Crop-sureness of Territory

Apart entirely from a singularly favorable geographical location, other recommendations equally important are playing their part in the above remarkable progress. One of such is the fertility of the vast territory tributary to Saskatoon and its enviable record for crop-sureness now so conclusively demonstrated.

## Natural Beauties

Another most potent factor is that Saskatoon's exquisite natural beauty is proverbial throughout the West. Its appeal to the stranger is instant, irresistible,—and all the more charming, because so unexpected. Perhaps, the main secret of this charm is the presence of the magnificent South Saskatchewan River that wends its way between beautifully wooded banks, right through the City's heart, not merely providing unending delight for the eye, but also affording an inexhaustible supply of pure water.

## Educational

With her central location, exceptional railway facilities, land fertility and exquisite natural charm, it is scarcely to be wondered that Saskatoon was selected as the seat of the University of Saskatchewan with its Agricultural College and College Farm, which institutions absorb an area of one thousand, three hundred and thirty-three acres. The foundation stone of a portion of the buildings was laid by Sir Wilfrid Laurier, on 29th June 1910, and work is being rushed with all dispatch. No expense will be spared toward making these buildings thoroughly modern in all respects and as imposing as any of the kind in the Dominion. Classes are meantime being held in temporary premises, while the College Farm—now all fenced and under cultivation—has already yielded one crop.

With the University,—vested with the sole degree conferring power (excepting theological) in the Province,—the Collegiate Institute and five large modern schools, Saskatoon's educational facilities are quite exceptional and cannot but appeal strongly to parents. This, for the reason that their children may commence in kindergarten: then proceed through public school and Collegiate Institute to finally emerge with a degree from the University—and all without having to leave the City of Saskatoon! Particulars concerning University classes, fees, etc., may be had on application to President W. C. Murray, Saskatoon.

### Industries and Power

The industrial life of the City which is already well awakened and developing most encouragingly, will receive a very emphatic impetus on completion of the scheme arranged on 5th March, 1910, between the City Council and the Power Company, for the damming of the river about 13 miles north of Saskatoon. This enterprise will materialize at the earliest possible moment, and then, power will be available to all manner of industries in unlimited quantity and at rock-bottom cost. From an industrial standpoint alone, it is not possible to overestimate the stupendous nature of the asset possessed by Saskatoon in her river.

### Public Spirit

Since the first, the policy of the City Fathers has been essentially progressive. They have been impelled in all their efforts by that dominant sense of good citizenship which precludes the very faintest shadow of anything resembling graft. That civic affairs have been most capably handled is evident from the high premium at which Saskatoon bonds are quoted in the London market.

### Municipal Ownership

The City owns and operates its own light and power plants, and also its hospital which was the first municipality owned and controlled institution of its kind in Western Canada, and the second in the entire Dominion. It is interesting to remark that as municipal undertakings, the handling of these utilities has not merely proven profitable, but entirely satisfactory in every way.

### Water, Sewers, Sidewalks, Etc.

An immense amount of public work is continually in progress; and it will be admitted that for the City's age, the following showing, compiled on 31st July 1910, is commendable:—

- 17.65 miles of sewers
- 18.80 miles of water mains
- 200 fire hydrants
- 1 sedimentation tank, capacity 1,300,000 gallons
- 2 standpipes, joint capacity 350,000 gallons
- 9.75 miles of concrete sidewalks
- 8.20 miles of wooden sidewalks
- 278.86 acres in public parks

## Comparative Building Statistics

Probably, the building statistics constitute the best and most definite indication of Saskatoon's phenomenal growth: —

Building Statistics for 1908 .....	\$ 115,625
Building Statistics for 1909 .....	1,002,905
Building Statistics until 31st July 1910 .....	1,804,406

It is conservatively estimated that the Building for the entire year 1910, will exceed \$3,000,000.

## Assessment

Another sound criterion of the development of any city is the growth of its assessment. In this line, Saskatoon's figures will be found interesting: —

Assessment 1906 .....	\$ 2,517,145
“ 1907 .....	6,621,327
“ 1908 .....	7,450,135
“ 1909 .....	8,156,357
“ 1910 .....	10,748,639

## Banks

The number of banks located at any point may be taken as a fair gauge of the commercial importance of such point: Saskatoon has twelve chartered banks and one trust company doing a banking business. In addition, all the leading trust, loan and insurance companies are duly in evidence.

## Newspapers

Another convincing indication of general up-to-dateness is the number and quality of Saskatoon's newspapers, viz: —

- The Daily Phoenix
- The Weekly Phoenix
- The Evening Capital
- The Weekly Capital
- The Saturday Press

It is easily within the mark to state that no city of its size in the entire Dominion is today issuing sheets more creditable than the above from every accepted standpoint. Both dailies receive the fullest line of the identical press dispatches going to leading papers in largest cities. The Phoenix greets you on your breakfast plate, the Capital awaits you at suppertime.

## Prosperity

Saskatoon's prosperity is phenomenal: In her entire history—notwithstanding the great financial crisis of 1907, and the somewhat indifferent cropping conditions which affected the whole West the year following—she has not yet known a single commercial failure. Such a record is scarcely surprising when one considers the fertility and sure-cropping character of her vast tributary territory.

## Opportunities

As to openings commercial, industrial and otherwise, investigation will show that no Western city offers a larger better assortment than Saskatoon. Nothing is more literally true than this. The Commissioner, Board of Trade, will be glad to supply all definite information.

In conclusion, so far as concerns climate, society and every other beneficent influence affecting these closely allied conditions—human prosperity and happiness—the City of Saskatoon is peculiarly blest. This, the very briefest sojourn within her hospitable gates will more than confirm.

## CITY OFFICIALS

**City Hall:** corner 3rd Avenue and 21st Street.

Mayor—Wm. Hopkins.

City Clerk—J. H. Trusdale.

City Treasurer—R. M. Keating.

City Engineer—George T. Clark.

City Assessor—J. Walker.

City Solicitor—R. W. Shannon.

City Auditor—Hugh C. Carson.

Police Magistrate—F. M. Brown.

Chief of Police—R. E. Dunning.

Chief of Fire Department—Thomas Heath.

Medical Health Officer—W. J. McKay, M.D.

Medical Health Inspectors—M. C. Geary and J. R. T. Forbes.

Building and Plumbing Inspectors—J. E. Harrison.

Inspector of Private Services—E. B. Preston.

Superintendent Electrical Dept.—E. L. White.

Superintendent of Power—E. L. White.

Poundkeeper—P. Cameron.

## ALDERMEN 1910.

**City Council** meets every Monday at 7.30 P.M.

Ward 1—Robert McIntosh, Dr. G. A. Munroe.

Ward 2—S. E. Stewart, H. L. Massey.

Ward 3—E. S. Blain, J. G. Willoughby.

Ward 4—Fred Guppy, Alex Smith.

Ward 5—Dr G. E. Holmes, John Ashworth.

## CIVIC STANDING COMMITTEES 1910

(The first named on each Committee is the chairman thereof.)

Finance and Assessment—Aldermen McIntosh, Ashworth, Smith.

Board of Works—Aldermen Blain, McIntosh, Stewart.

Health and Sanitation—Aldermen Munroe, Willoughby, Blain.

Protection of Life and Property—Aldermen Guppy, Blain, Munroe.

Recreation—Aldermen Ashworth, Massey, Holmes.

Public Utilities—Aldermen Smith, Holmes, McIntosh, Ashworth, Stewart.

Railways and Commerce—Aldermen Holmes, Smith, Willoughby.

Printing and Supplies—Aldermen Massey, Guppy, Willoughby.

## PUBLIC PARKS COMMISSION

Rev. E. B. Smith, J. F. Cairns, Dr. J. H. C. Willoughby.

## MUNICIPAL WARDS

Ward I.—Nutana from the eastern boundary of the City, west to the Saskatchewan River and south to Taylor Street.

Ward II.—That portion of the City lying south of the south limit of Twenty-first Street between Avenues A on the east, and P on the west, and south to the Saskatchewan River.

Ward III.—That portion of the City lying north of the north limit of Twenty-second Street and east of the east limit of Avenues A and north of the Saskatchewan River.

Ward IV.—That portion of the City lying south of the north limit of Twenty-second Street and east of the east limit of Avenue A, and north of Saskatchewan River.

Ward V.—That portion of the City lying north of the south limit of Twenty-first Street and west of the east limit of Avenue A.

## MAYORS SINCE INCORPORATION

Incorporated as a Town, July 1903.

1903—James R. Wilson.

1904—James R. Wilson.

1905—Malcolm Isbister.

Incorporated as a City, May 1906.

1906—James Clinkskill.

1907—James R. Wilson.

1908—James R. Wilson

1909—Wm. Hopkins.

1910—Wm. Hopkins.

## POLICE DEPARTMENT

Police Court and Offices: Third Ave. and Twenty-first Street.

Chairman of Committee—F. E. Guppy.

Police Magistrate—F. M. Brown.

Chief of Police—R. E. Dunning.

Sergeants—G. M. Donald, A. C. Sutton.

Constables—S. C. Evans, A. Milne, Elmer Moore, A. J. Deadmarsh, Samuel Quinn.

## HEALTH AND SANITATION DEPARTMENT

Medical Health Officer—Dr W. J. McKay.

Health Inspectors—M. C. Geary, J. R. T. Forbes.

## FIRE DEPARTMENT

Chief—Thomas Heath.

### Fire Stations

Central Hall—23rd St. East, corner 4th Avenue.

Westside Hall—Avenue E, corner 21st Street West.

Nutana Hall—11th Street, corner Broadway.

### Equipment

Motor Fire Truck, value \$6,000, Hose Wagon, Hook and Ladder Wagon, Chemical and Watrous Steam Fire Engine, contained within Central station. Apparatus Westside Station consists of Combination Hose and Chemical Wagon. Nutana Station consists of Gasoline Fire Engine and two horsereels.

### Fire Alarms

Box No.	Location
3	Corner 24th Street and 5th Avenue.
4	Corner 23rd Street and Alberta Avenue.
5	Corner 21st Street and 4th Avenue.
6	Corner Queen Street and 5th Avenue.
7	Corner 26th Street and 3rd Avenue.
8	Corner 20th Street and 2nd Avenue.
9	Corner 22nd Street and 2nd Avenue.
13	Corner 10th Street and Victoria Avenue.
14	Corner Main Street and Dufferin Avenue.
15	Corner 14th Street and Broadway Avenue.
16	Corner Cherry Street and Saskatchewan Crescent.
17	Corner 23rd Street and Avenue F.
18	Corner 18th Street and Avenue G.
19	Corner 20th Street and Avenue B.
23	Corner 19th Street and Avenue D.
24	Corner 20th Street and Avenue H.
25	Corner 22nd Street and Avenue C.
26	Corner 16th Street and Avenue H.
27	Corner 26th Street and Avenue E.
28	Corner 29th Street and Avenue B.
43	Placed in Central Fire Hall (Pulled on Telephone Alarm).

City Pumping Station and Power House are on west side of the river at the south extremity of Avenue H.

The standing pressure is derived from standpipe located corner 11th Street and Broadway, and the registered average is from 60 to 65 lbs., which is ample for domestic purposes and small conflagrations. In case of large fire the Fire Chief upon his arrival immediately telephones the Pumping Station for increased pressures. The warning is then given to the man in charge of the standpipe by the blowing of a large whistle, and the response is made by turning the key and thereby stopping flow of water going in to the standpipe, which causes the pressure to come direct from the pumps.

## ENGINEERING DEPARTMENT

City Engineer—George T. Clark.

Asst. City Engineer—Junius Jousson.

Building and Plumbing Inspector—J. E. Harrison.

Inspector of Private Services—E. B. Preston.

The Engineering Department of the City has charge of the installation of all pumping machinery, the installation and maintenance of all water and sewer mains, house sewer and waterworks service connections, the construction and maintenance of concrete and plank sidewalks, the opening up and maintenance of streets, the construction and maintenance of bridges, the construction of all municipal buildings and the inspection of all building and plumbing within the City Limits.

### Statistics

There are 3,344.67 acres within the City Limits and of this area 278.86 acres are taken up in parks.

There are approximately 30 miles of graded streets, 9.75 miles of concrete sidewalks, and 8.20 miles of plank walks. When this year's contracts are completed there will be installed 18.80 miles of water mains, 17.65 miles of sewers, 200 fire hydrants, 1 sedimentation tank, and 2 steel stand pipes with joint capacity of 350,000 gallons.

There are 3 railway bridges and one traffic bridge across the Saskatchewan river at Saskatoon. Three of these bridges have foot attachments for pedestrian traffic.

## CITY WATER WORKS AND ELECTRICAL DEPARTMENT

Superintendent—E. L. White

Collector—F. C. Bush

The plant consists of: three engines and generators, viz.—

350 H.P.	225 K.W.
180 H.P.	125 K.W.
750 H.P.	500 K.W.

2,200 volts A. C. direct connected two phase generators, 2 Condensers and air pumps, 1 Tandem compound 850 gallons duplex press pumps, 1 high duty pump 850 gallons, 2,850-gallon deep well pumps, which pump through the condensers and into a 30x12x12 ft. tank, thereby supplying the city and condensing the water for the entire plant. Three 125 H.P. boilers and three 250 H.P. boilers with the necessary feed pumps. Hopps heater, injectors, etc.

The reservoir on Nutana Hill has a capacity of 180,000 gallons. A domestic pressure is maintained at 80 lbs. while for fire purposes the pressure is raised to 125 lbs. per square inch. There are 200 fire hydrants throughout the city.

There 20 miles of lines of electric wires, 55 series A. B. and Westinghouse arc lamps. About 1200 residences, offices and other buildings are connected and about 3000 incandescent lamps installed.

---

## BOARD OF TRADE

President—Malcolm Isbister

Vice-President—Major H. Acheson

Commissioner—F. Maclure Sclanders

Treasurer—T. F. Calder

Council—W. A. Coulthard, G. H. Clare, J. H. Holmes, A. H. Hanson, E. M. Snell, G. A. Alexander, C. Y. Stacey, R. H. Poker.

## PUBLIC SCHOOLS

The School District of Saskatoon comprises, beside the City of Saskatoon, all lands in sections 7 to 36 in township 36 R, 5 W 3rd M, and sections 1 to 6 in township 37-5-W 3, a district six miles square, with an estimated population in 1910 of about 15,000. Beside the schools erected in the City, there is one school in the village of Sutherland on section 35-36-5, where there is a population of some 500 souls. The whole district is managed by one School Board of five members.

Chairman of Board—J. E. Paul, merchant

Trustees—J. E. Paul, J. Russell Wilson, Joseph H. Holmes, A. J. Sparling, J. D. Macdonald.

Secretary-Treasurer—William P. Bate

Superintendent of City Schools—H. H. Smith, B.A.

Building Superintendent—R. Blackwood.

## SYSTEM OF STREET NAMES AND NUMBERING

Streets run east and west.

Avenues run north and south.

The townsite has been laid out allowing 18 streets in Nutana south of the Saskatchewan River. Eighth to Eighteenth Streets being within the Corporation limits; while First Street to Seventh Street lies south of the southern city limits. First Street to Eighteenth Street are in Nutana; Nineteenth Street being the first street on the west side of the River, East of the C. N. R. tracks and west of the River streets are numbered from Nineteenth to Twenty-sixth, West of the C. N. R. tracks in Riversdale streets number north from Eleventh to Thirty-third, the northern city limits.

With the Avenues the C. N. R. tracks are the dividing line. Avenues First, Second, Third, Fourth and Fifth running north and south and paralleling the C. N. R. tracks to the east are arranged numerically from the C. N. R. to the Saskatchewan River. West of the C. N. R. avenues are arranged alphabetically from Avenue A to Avenue P, the western city limits.

In Nutana the street information is taken east from the Saskatchewan River to eastern city limits. On the Avenues north from 8th Street the southern city limits. The system of house numbering adopted by various cities throughout the continent known as the Decimal or Philadelphia system, viz., an even hundred numbers are allotted to each block, the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on a street or avenue.

On the Avenues, which run north and south, a number is allotted for every 12 feet and on streets running east and west, a number is allotted for every 15 feet.

Odd numbers on the east and north sides. Even numbers on the west and south sides.
